Field proven industrial electrical components offer dependability.

One of two built-in totalizers is resetable and is tailored to your needs.

Unlimited communication options (wired or wireless).

Auto-Tare function continuously maintains true ‘zero’ regardless of material buildup.

Analog to digital conversion using solid state electronics.

PLC-based processor.

User-friendly software.

Easily integrated into existing data management system.

Simple 3-step calibration.

Archweigh 1000 Integrators can control 1 scale while Archweigh 2000 Integrators can manage from 2 to 6 scales.

Touch screen technology makes it simple to determine total weight, rate of flow, and belt speed with precision.
Note: If available, prices vary with options.
