

ARCHWEIGH DUAL HP[®] BELT SCALE

- ✓ Simple Installation
- ✓ Low Maintenance
- ✓ Super Heavy-Duty
- ✓ Fast Delivery
- ✓ Worksheet Required

Patented ArchWeigh dual load cells (4 total) assure accuracies of +/- .25% by automatically zeroing out the effects of the idlers movement.

Two speed units precisely measures belt speed. Internal housing means once the scale is installed, so is the speed units.

CEMA scale duty idlers (.015 TIR)

Reinforced, factory balanced and leveled frame eliminates the common problems associated with insufficient structure.

Oversized junction box for field connections.

- ArchWeigh HP Belt Scales provide long-term repeatability without recalibration.
- Accurately measures only material on the belt and eliminates the force of the moving belt.
- A complete scale carriage, not a 'do-it-yourself' kit.
- Unique dual load cell design allows for a positive/negative response to account for normal conveyor variance.
- Unitized bridge construction and internal speed sensor allow for one time 'Bolt-In-Place' installation.

WHO IS ARCH ENVIRONMENTAL?

Manufacturer and worldwide distributor of preferred bulk conveyor components since 1975.
