

AT-LAST-A-SEAL® SEALING SYSTEM

- ✓ Simple Installation
- ✓ Low Maintenance
- ✓ Corrosion Resistant
- ✓ Fast Delivery
- ✓ Super Heavy Duty
- ✓ Floating Seal

Seamless 65-75 durometer EPDM rubber is weather, UV, and ozone resistant.

Steel, self-adjusting retaining chains create a tight seal that free-floats on the belt prolonging belt and seal life.

At-Last-A-Seal® becomes part of the containment wall, sealing the inside of the chute and floating with the curve of the belt.

- *At-Last-A-Seal*® provides a 'live' seal and moves freely on the chute wall requiring minimal, if any, maintenance.
- Self-adjusts to the load weight on the belt increasing the life of the seal.
- No seams or joints means no leakage and no maintenance.
- No clamps or mounting brackets needed for installation.
- Protects the chute wall by acting as a chute liner.
- Available in continuous lengths up to 600'.
- Now available for standard or flat belts.
- Ideal with Simplicity Slider System.
