

SABER DUAL PRIMARY® CLEANER

- ✓ Simple Installation
- ✓ Low Maintenance
- ✓ Splice Safe
- ✓ Fast Delivery
- ✓ Heavy-Duty

Two curved, extremely tough polyurethane blades leave no doubt that belts are carry-back-free.

A narrower front cleaner that eliminates bulk of carryback off the center of the belt, backed by a second, wider cleaner to remove material out to the edges of the belt.

Each cleaner is equipped with Arch's patented Twister Tensioner that maintains optimum blade-to-belt pressure.

- Patented *Twister Tensioner*® maintains consistent blade-to-belt pressure and its core is GUARANTEED FOR LIFE!
- Two Saber primary cleaners mounted at the head pulley for maximum defense against carryback.
- Decreases cleanup costs by eliminating carryback BEFORE it reaches the ground.
- Compact design easily installed in tight spaces.
- Non-segmented blade is quickly replaced with single-pin removal.
- Multiple blade options include high-temperature, high moisture, high-speed, and food-grade.
